mythology

A man with a beard, wearing a black tank top, is captured in a dynamic dance pose with his arms outstretched. He is in the center of a crowded room, possibly a bar or club, with other people visible in the background. A man in a black and white striped shirt stands behind him. The lighting is dim and warm, typical of a nightlife setting.

What's teardrop?

ティアード・ドロップ

二人用のゲーム。先後を決め、互いに涙の形をした10面体ダイスを7個シャッフルする。更にそこから2個以上のダイスを置で順引きし、最終的に出揃った7個のダイスの目で勝負を決める。同じ目が出揃ってればタイアーといわれ役になり、大きい数字で多く揃うほど強い役になる。不揃いなら役なしのデッドとなる。ただし2組以上のタイアーはバーストといわれザッド以下のあつちとなる。両者バーストとなった場合は、バーストになっているダイスの目の数字の合計が少ない方の勝となる。

What's teardrop?

A game similar to poker where two players have seven face-down cards. Each also has two aces and are numbered from 1 to 5, also using the highest number. The first player moves to the ace by pressing a button on the "Shuffle" machine. In order to get a better hand, a player can exchange two or more of the ace. One with the same number is called a "Ace". A hand with a higher number of aces is better. After two aces, the player controls her "Shuffle" or "Draw Ace" is the strongest possible hand, followed by "Ace Ace", "Ace Ace" and so on. A hand in "Ace" if it doesn't include a single card with that face on it. If a hand contains more than two faces it is called a "Draw" and has less value than a "Ace" hand. When both players have a "Draw", the person with the lowest numerical card is the winner.

[ティアドロップ編]

A game similar to poker where players have seven tear drop-shaped dice. Each die has ten sides and are numbered 1 through 10, nine being the highest number.

The first player mixes the dice by pressing a button on the "Shuffle Machine." In order to win, a player must reshake two or more of his dice. Dice with the number of tears is called "Tear". A hand with a higher number of tears is better.

After two shakes, a hand with "Five Tear" or "Seven Tear" is the strongest possible hand, and so on. A hand is called "Dead" if it doesn't contain more than a dead hand. When both hands have the same total is the winner.

THE HAND WITH THE FINEST POINTS WINS.

WHEN BOTH PLAYERS BURST.

WHAT'S THE POINT OF THE BURST SECTION?

THE LARGER TEAR YOU HAVE, THE BETTER YOUR HAND IS.

IF WE BOTH BURST WITH THE SAME NUMBER OF POINTS, WE LOSE.

SUPPOSING THAT I BURST ABOVE 27 POINTS, YOU WIN.

FOR EXAMPLE, A THREE-TEAR OF 4'S GIVES YOU 12 POINTS. A TWO-TEAR OF 7'S GIVES YOU 14 POINTS. TOTAL, 26 POINTS.
